Open Education Repository

It is constituted by concrete innovative high-quality content is delivered through a multitude of ways, examples and learning topics with relevant tips, goals, examples of pedagogic strategies, teaching materials and case studies.

Why EMERGE is needed now, more than ever

COVID-19 has revealed the need for digital transformation and the gap in the market regarding qualitative and spot on training material for empowering female engineers.

We have designed our training material based on the feedback we had received from experts and end users from all over Europe. Based on their preferences and our expertise we had created 9 tailored Modules that really can make a difference. And now it's the time for you to test them!

1

TRY SOMETHING UNIQUE

9 modules that cover every aspect

2

EMPOWER YOURSELF

With state of the art knowledge created by experts in their field

3

CHANGE YOUR LIFE

By starting your entrepreneurial journey in engineering sector

What pilot testers say about our material

“Definitions and illustrations are very clear and even themselves they tell the story of the module. Also language is very clear so that non-natives can also understand the content” - Respondent No4

“With the base knowledge the course provided, it is much more easy to understand domestic approaches to the topics. Also it is helpful to be able to think outside of the box.” - Respondent No23

“I liked the way the digital tools were presented - briefly, concisely and transparently.” - Respondent No38

“It covers everything i need” - Respondent No51
